 TOPOGRAPHIC MAP
 No. T-5863
 FLORIDA
 GULF COAST
 PINE ISLAND SOUND
 NORTH CAPTIVA ISLAND
 AND VICINITY

SCALE 1:10,000
 (1 inch=833.33 ft.)

CONTROL DATA

Polyconic projection, North American 1927 datum.
 Reference station: RIDGE, 1934
 Latitude: 26°46'01.03" (adjusted)
 Longitude: 82°12'54.802" (1505.2 meters)
 5,000-foot grid based on Florida (West zone) plane coordinate system
 Datum: Mean High Water

LEGEND

▲ Triangulation station
 ○ Resurveyed station of less than third order accuracy
 ○ (G) Description available
 --- Approximate Low Water Line
 - - - - - Field road and trail
 The light line around the marsh defines the outer limits of vegetation visible above mean high water. The mean high water line (intersection of the plane of mean high water with the ground) is shown only on flat land and is represented by a heavy solid line.
 Buildings were compiled from air photographs without ground inspection and are subject to additions and corrections after each inspection.
 This map, without contours, was compiled from aerial photographs taken December 14, 1939 and November 20, 1942, and supplemented by other surveys to March, 1943.
